- Represented unit in All India Guard of Honour (AIGO), Republic Day Camp – 2025

PROJECTS

Customer Churn Analysis

- Analyzed telecom dataset using Python to identify churn drivers.
- Built visualizations to highlight customer behavior patterns.
- Suggested retention strategies based on data insights.

Power BI Dashboard

- Developed interactive dashboard with KPI tracking and dynamic filters.
- Analyzed sales performance across regions and categories.

Streamlit App

- Built a Streamlit-based application to generate dynamic charts from datasets
- Automated insights generation and reporting

Netflix Exploratory Data Analysis

- Conducted exploratory data analysis (EDA) on a Netflix dataset using Python visualization libraries.
- Analyzed content distribution across genres, countries, and ratings

Blinkit Inventory & Supply Chain Analytics

- Analyzed inventory and delivery datasets using Python and visualization tools.
- Generated actionable insights to improve supply chain efficiency.
