

Himanshu Shakya – Portfolio

About Me

Hello! I am Himanshu Shakya, a B.Tech Computer Science Engineering student specializing in Data Science at Bhagwan Parshuram Institute of Technology, IP University. I am passionate about data analysis, business intelligence, and machine learning.

I have hands-on experience working with Python, SQL, Excel, Power BI, and Tableau through internships and real-world projects. I enjoy transforming raw data into meaningful insights and building dashboards and predictive solutions that support data-driven decision-making.

Technical Skills

Programming & Databases

- Python
- SQL
- R

Python Libraries

- Pandas
- NumPy
- Matplotlib
- Seaborn
- Scikit-learn
- Streamlit

Data Visualization & BI Tools

- Power BI
- Tableau
- Excel
- Power Query

Data Science & Analytics

- Data Cleaning
 - Exploratory Data Analysis (EDA)
 - Data Visualization
 - Feature Engineering
 - Statistical Analysis
 - Machine Learning
 - Predictive Analytics
 - KPI Reporting
 - Business Analytics
-

Internship Experience

Data Analyst Intern – Tata Power Delhi Distribution Limited (TPDDL)

June 2025 – July 2025

- Developed interactive dashboards using Power BI and Tableau.
- Worked on KPI tracking and reporting.
- Built a Python-based chart builder application for automated visualization.
- Performed data analysis and reporting using real-world datasets.

Data Science Intern – TechNest Intern

August 2025 – September 2025

- Performed data cleaning and preprocessing using Pandas and NumPy.
- Conducted EDA using Matplotlib and Seaborn.
- Identified trends, correlations, and anomalies in datasets.

Data Scientist Intern – Evoastra Ventures Pvt. Ltd.

October 2025 – November 2025

- Conducted exploratory data analysis and feature engineering.
 - Built and optimized machine learning models using Scikit-learn.
 - Worked on regression and classification problems.
-

Featured Projects

Hotel Booking Cancellation Analysis

Tools Used: Excel, Python, Power BI

- Collected and analyzed hotel booking datasets from Kaggle.
- Performed data cleaning using Excel formulas and preprocessing techniques.
- Conducted exploratory data analysis to identify cancellation trends.
- Built dashboards to analyze booking patterns, customer behavior, and seasonality.
- Generated insights to help reduce booking cancellations.

Key Insights

- Higher lead time bookings showed increased cancellation probability.
 - Certain months had significantly higher cancellation rates.
 - Customer type and booking channel impacted cancellation behavior.
-

Mobile Sales Dashboard

Tools Used: Power BI, Power Query

- Developed an interactive Power BI dashboard for mobile sales analysis.
- Performed data cleaning and transformation using Power Query.
- Analyzed region-wise, category-wise, monthly, and yearly sales.
- Used slicers, KPIs, charts, and maps for interactive reporting.

Dashboard Features

- Region-wise Sales Analysis
 - Monthly & Yearly Sales Trends
 - KPI Tracking
 - Interactive Filters & Slicers
-

Customer Churn Analysis & Prediction

Tools Used: Python, Pandas, Scikit-learn

- Performed EDA to identify factors affecting customer churn.
 - Processed and visualized customer behavior data.
 - Built predictive models for churn prediction.
 - Generated business insights for customer retention strategies.
-

Blinkit Supply Chain Analytics

Tools Used: Python, Pandas, Matplotlib

- Analyzed delivery performance and order cancellations.
- Performed data preprocessing and feature engineering.
- Identified operational bottlenecks using EDA.

- Created visual reports for logistics insights.
-

Dynamic Chart Builder Web Application

Tools Used: Streamlit, Python

- Developed a Streamlit web application for automated data visualization.
 - Allowed users to upload Excel/CSV files and generate charts dynamically.
 - Implemented automated insight generation and PDF reporting.
-

Healthcare Disease Prediction System

Tools Used: Python, Machine Learning, Scikit-learn

- Built a machine learning-based disease prediction system using symptom analysis with Kaggle datasets.
 - Performed data preprocessing, feature engineering, and model optimization to improve prediction accuracy.
 - Developed a medical chatbot for symptom-based interaction and disease suggestions.
 - Implemented an appointment scheduling module for better healthcare assistance.
 - Used machine learning algorithms for disease prediction and analysis.
 - Generated healthcare insights through data-driven approaches.
-

Certifications

- Samsung Innovation Campus – Artificial Intelligence, Data Science & Machine Learning
 - Deloitte Data Analytics Certificate
 - Tata Data Visualization (Forage)
 - Power BI Certification
 - IIT Bombay Spoken Tutorial – SQL & PHP
-

Leadership & Achievements

- Cadet Warrant Officer (CWO), NCC Airforce Wing
 - Selected for All India Vayu Sainik Camp (AIVSC) – 2024
 - Participated in Republic Day Camp – 2025
 - Developed leadership, teamwork, and problem-solving skills through NCC activities.
-

Career Objective

I aim to build a strong career in Data Analytics and Data Science by applying my technical, analytical, and problem-solving skills to real-world business challenges. I am passionate about transforming data into actionable insights and continuously learning emerging technologies in AI, analytics, and business intelligence.
